Smart Citizens, Smarter State is a manifesto for a new way of governing. Digital technologies, Noveck argues, create abundant opportunities for governments to learn from their citizens and provide better services. Written with optimism and passion, this book brings the open source revolution to public administration.

*Smart Citizens, Smarter State: The Technologies of ...*

In Smart Citizens, Smarter State, Noveck says governments are unable to use open Internet networks to bring about needed changes in their operations and policy outputs. She is certainly correct in making this observation. Nevertheless, she believes governments can use the Internet for structural and procedural reforms, as well as for problem ...

*Smart Citizens, Smarter State: The Technologies of ...*

"The ultimate goal of Smart Citizens, Smarter State is not simply a more competent regulatory state, but a transformed relationship between government and the governed. To policymakers and bureaucrats, Noveck makes the case that soliciting citizen expertise can make governance more effective; to democratic theorists, Noveck argues that providing expertise is a genuine form of civic engagement...
