S.Chand S Biology -XII - CBSE

The Constitution of India is the supreme law of land. The document lays down extensively the framework demarcating fundamental political code, structure, procedures, powers, and duties of government institutions and sets out fundamental rights, directive principles, and the duties of citizens. It is the longest written constitution of any country on earth. B. R. Ambedkar, chairman of the drafting committee, is widely considered to be its chief architect. Constitution is a living document, an instrument which makes the government system work. Its flexibility lies in its amendments. In this edition, the text of the Constitution of India has been brought up-to-date by incorporating therein all amendments made by Parliament up to and including the Constitution (One Hundredth Amendment) Act, 2015 which contains details of acquired and transferred territories between the Governments of India and Bangladesh and the same has been included in Annexure. Good Readable Print !

A book on social science

This book of Sem II Paper II. BO-122: Principles of Plant Science includes "Plant Physiology, Cell Biology and Molecular Biology". It is also written keeping the same tradition. All the topics are written in a highly simplified manner and explained with maximum, well labeled neat diagram. Each chapter is having points to learn, points to remember and exercise. This will help the students for the preparation of fil examination.

This volume, Mammalian Systems, is one of four new Practical Approach volumes on DNA cloning which together provide a comprehensive practical manual of current recombinant DNA methodology. Mammalian Systems will prove invaluable to all researchers, from PhD students to experienced group leaders, who already express heterologous genes in mammalian systems or who plan to do so.

Famous for the inspiring slogan, 'Jai Jawan, Jai Kisan', Lal Bahadur Shastri's prime ministership saw India ensuring respect for the farmer and the soldier. In his brief yet eventful tenure of nineteen months, he resolved some of the most contentious problems facing the country, by taking all segments of society along. The book takes a closer look at his pioneering efforts at ensuring self-sufficiency in foodgrains by ushering in the Green Revolution. As the inspiration behind the original 'surgical strikes', it also highlights the laudatory manner in which Shastri motivated the soldiers to effectively respond to Pakistan's military adventurism, by giving the green signal to the military to enter Pakistani soil. Insightful, thought-provoking, and written in a lucid style by one of India's most respected political commentators, Lal Bahadur Shastri focuses on the leader's greatest strengths-integrity, humility, simplicity and a self-effacing nature.
