Chapter 17 Mechanical Waves and Sound Summary 17.1

Mechanical Waves A mechanical wave is created when a source of energy causes a vibration to travel through a medium.

- A mechanical wave is a disturbance in matter that carries energy from one place to another.
- The material through which a wave travels is called a medium.

Chapter 17 Mechanical Waves and Sound

Mechanical waves are classified by the way they move through a ...

Answer to . . . Figure 2 The movement of the ribbon is up and down, which is perpendicular to the direction of the wave.
