A work immersed in the particular context of asylum appeals, Administrative Justice and Asylum Appeals attends to the detail of the design and operation of the relevant tribunal processes, evaluating them against justice and managerial criteria. As a work on tribunal adjudication, Thomas argues both for an appreciation of the limits of what adjudication can achieve and for the benefits of inserting adjudication into the administrative process of determining eligibility for asylum.

Asylum adjudication is also one of the most difficult areas of decision-making in the modern legal system. Integrating empirical research with legal analysis, this book provides an in-depth study of the development and operation of this tribunal system and of asylum decision-making. The book examines how this particular appeal process seeks to mediate the tension between the competing values under which it operates.
