type that you can use to work with and manipulate strings in your Go programs.

An Introduction to the Strings Package in Go  
| DigitalOcean

The introduction of any document or essay introduces the reader to the topic you are writing about. The introduction is also essential in capturing the reader's interest and making him want to keep reading. The introductory paragraph generally consists of three to five sentences and should only highlight the main topic and intention of the essay. With some careful thought and

planning, you can easily set up an introductory paragraph.

How to Set Up an Introductory Paragraph | Pen and the Pad

If you follow a simple set of rules, you can write a very good introduction. The following outline can be varied. For example, you can use two paragraphs instead of one, or you can place more emphasis on one aspect of the intro than another.

The book of Isaiah itself is split up into two parts (part 1: chaps. 1-33 and part 2: chaps. 34-66) with seven main divisions: chs. 1-12, 13-23, 24-27, 28-33, 34-35, 36-39, and 40-66. Recognizing the fear of oversimplification, the author reduces Isaiah's theology to two encompassing ideas found within the text of chapter one: "my people" and ...

Dynamic material testing, such as in a Split-Hopkinson bar test, requires high-speed data acquisition (DAQ) and sensors with enough bandwidth to capture these dynamic impulses. This webinar will give an introduction to the Split-Hopkinson bar tests as well as discuss the required data acquisition systems for this type of testing.
