communication engineering and many other fields.
This volume contains the proceedings of the 8th
AAECC conference, held in Tokyo in August 1990.
Researchers from Europe, America, Japan and other
regions of the world presented papers at the
conference.

Applied Algebra, Algebraic Algorithms and Error-Correcting ...

The AAecc conferences focus on the algebraic aspects of modern computer science, which includes the most up-to-date and advanced topics. The topic of error-correcting codes is one where theory and implementation are unified into a subject both of mathematical beauty and of practical importance.

The proceedings of the AAecc-6 are included in this volume. The main topics are: Applied Algebra, Theory and Application of Error-Correcting Codes, Cryptography, Complexity, Algebra Based Methods and Applications in Symbolic Computing and Computer Algebra, and Algebraic Methods and Applications for Advanced Information Processing.
