bulk materials over both short and long distances. Belt conveyors are ideal for conveying bulk materials of large lump size since the bulk materials stay stationary on the belt. The layout of your plant can be simplified and made more efficient with the use of belt conveyors.

# Where To Download Belt Conveyors | Bulk Material Conveying Equipment

Belt conveyors can be used to stock-pile or reclaim bulk materials. Radial stackers are used for creating large piles of materials such as wood chips, coal or ore. Reclaim belt conveyors are located under the piles to carry the materials into the plant
