### *Fourth European Marine Biology Symposium*

An introductory course in biology ... The fourth number of the course code shows the level of the course. For example, in course 219206, the fourth number is a 2, so it is a 200-level course (usually ...

### *Introductory Biology*

The best universities for molecular biology and genetics have shown strength ... as well as cell functionality. Students may study topics including basic and applied genetics, mechanisms of ...

### *Best Global Universities for Molecular Biology and Genetics*

UMass Lowell prepares Biotechnology Option students for careers in this area with practical, hands-on courses providing laboratory skills in Cell Culture, Recombinant Protein Production, Molecular ...

### *Biotechnology Option*

Join us for our online taster session to hear about how an A Level in Biology can lead you into a fantastic and successful STEM career. Are you studying for an A Level in Biology and want to explore ...

### *What can I do with A Level Biology?*

The National Cancer Institute has awarded Seattle's Institute for Systems Biology \$13 million to lead ... every headline What predicts long-COVID? Study led by Seattle researchers provides ...

### *Institute for Systems Biology awarded \$13M to study administering cancer drugs in succession*

The growing scope of synthetic biology applications for multiplexed diagnostics and cell recording, as well as therapeutic genome editing is expected to increase its demand over the study period.

### *Synthetic Biology Market Analysis, Research Study With Thermo Fisher, Novozymes, Merck KGaA*

In a multidisciplinary study that combines molecular biology with neuroscience, researchers have found that Tob gene plays an important role in reducing depression, fear, and anxiety. First ...

### *'Jumping gene' found to be strongly linked to depression, fear, and anxiety*

All fourteen astronauts in the study, from NASA's space shuttle program, had DNA mutations in blood-forming stem cells, a Nature Communications Biology study (opens in new tab) Aug. 31 concluded.

### *Astronauts' blood shows signs of DNA mutations due to spaceflight*
