### Cataract Surgery: Introduction and Preparation: Amazon.co ...

Cataract surgery is a straightforward procedure that usually takes 30 to 45 minutes. It's often carried out as day surgery under local anaesthetic and you should be able to go home on the same day. During the operation, the surgeon will make a tiny cut in your eye to remove the cloudy lens and replace it with a clear plastic one.

### Cataract surgery - NHS

The cataract surgery procedure. In preparation for cataract surgery, your doctor will walk you through the procedure and what your options are. Depending on certain factors, either manual surgery performed by your doctor or laser-assisted cataract surgery may be best for you. You'll also receive guidance on follow-up care, so be sure to come with any questions you may have.
