Kinetic Theory in the Earth Sciences

This possible "ocean world," according to the team's study, published this month in The Astronomical Journal, lives some 100 light-years away from Earth, orbiting within a binary star system nestled ...

Possible 'Ocean World' Discovered 100 Light-Years Away From Earth

Readers will come away knowing not just that the Earth orbits the Sun, but why we believe that it does so. The Copernican Revolution also provides an excellent case study of what ... [is] a short ...

Finding our Place in the Solar System

In a study just published in the journal, Science Advances, the research team reports findings that show that the Moon inherited the indigenous noble gases of helium and neon from Earth's mantle.

One more clue to the Moon's origin

Earth system model simulations conducted ... marine heatwaves and ocean acidity extremes. This study was supported by the Swiss National Science Foundation and the European Union's Horizon ...

Compound Extreme Events Stress Earth's Oceans

Some of the key players profiled in the study are SpaceX ... BCG Matrix & Company Profile. [Chapter 7: To evaluate the market by segments, by countries and by Manufacturers/Company with ...](#)

LEO Satellite Market Competitive Insights and Precise Outlook 2022-2028

In the popular Apple+ TV show For All Mankind, Americans and the Russians are engaged in a race to search and harvest water from the moon. In real life, it turns out the water could be in other places ...

This is Where Earth's Water Came From, Scientists Reveal

An international team of researchers led by the University of Montreal recently discovered a giant alien "super-Earth" exoplanet that they believe may be ...

Scientists Discover Giant Alien [Super-Earth](#): They Believe May Be Covered In Water

Scientists have not yet come to a particular conclusion as to why the earth is spinning faster than its normal speed. However, there are many possible explanations for the same. A study published ...

Earth Rotating Faster: Records shortest day yet again; Know how this will impact us

Researchers have found the strongest evidence of how the formation of Earth's continents began and it supports a long-held theory.

How did Earth's continents form? The answer lies in space

The RSC's Environmental Science Journals welcome your high-impact research on all environmental aspects of the COVID-19 pandemic. Environmental Science: Processes & Impacts strongly prefers ...

Environmental Science: Processes & Impacts

Applications of Unmanned Aerial Systems (UAS) in Atmospheric Science [Guest Editors Grant Allen ...](#) The journal is cross-disciplinary and spans the entirety of Earth's atmosphere. This includes ...

Environmental Science: Atmospheres

Earth recorded its shortest day in modern history by 1.59 milliseconds, but scientists say this is not extraordinary because the length of each day fluctuates.

Yes, the Earth spun faster than usual on June 29, but scientists say it is not a cause for concern

Doctors, such as Patz, said they need to think of the diseases as symptoms of a sick Earth. [The findings of this study are terrifying and illustrate well the enormous consequences of climate ...](#)
