"Normally, when you think about initiating a chemical reaction, it involves applying heat. This is the reverse of that," said Bellan, whose Lab for Advanced Materials focuses on creating materials ...

Study initiates chemical reactions by cooling materials instead of heating them

"We can precisely monitor a change in concentration in real time and measure the current stage of a chemical reaction in the beaker. This is in strong contrast to other reference technologies, where ...

Mid-IR lab-on-a-chip allows rapid monitoring of reactions

Uniqsis has launched ColdChip™—a new versatile mixer/reactor module enabling researchers to experiment with different chemistries particularly exothermic reactions that need to be safely run in a ...

Standalone Flow Chemistry Module for Exothermic Reactions

This discount is shown at checkout, if applicable. What drives entrepreneurial scientists to take an idea discovered in the lab and turn it into a business, especially in areas where other ...

From the lab to the battery start-up

In modern chemistry and physics, they have proven to be a useful model for quantum mechanical description and prediction of chemical reactions. Only if the orbitals match in space and energy can ...

Physicists discover new rule for orbital formation in chemical reactions

Thus, we can precisely monitor a change in concentration in real time and measure the current stage of a chemical reaction in the ... Miniaturized lab-on-a-chip for real-time chemical analysis ...

Miniaturized lab-on-a-chip for real-time chemical analysis of liquids

St. Jude Children's Research Hospital scientists have leveraged the latest chemical technology called ... The study provides pre-clinical proof of principle for the LCK-targeted PROTAC approach ...

New chemical technology leads to better targeted therapeutics against high-risk leukemia in lab

Noori, aged 30, is a lab technician at Afghanistan's largest chemical plant, located outside the northern city of Mazar-i-Sharif in Balkh province. Slight of build and softly spoken, she exudes ...
