24.1 Goal: create more effective graphs. According to Naomi Robbins, effective graphs "improve understanding of data". They do not confuse or mislead. To paraphrase: Most of us use a computer to write but we would never characterize a Nobel prize winning writer as being highly skilled with Microsoft Word.

Creating solutions is about seeing the bigger picture and understanding the idea or problem within the context of a larger system. This requires more lateral thinking and gathering information from a far wider variety of sources than when we are "solving problems." Solution creating can be too loosely defined and only slowly drift towards the ...
