Examines the diplomatic career of Curt Prüfer (1881-1959), showing how the pre-World War I generation of German bureaucrats, with its nationalist and antisemitic attitudes, continued to function after the war, eventually giving Nazism support and a cloak of respectability. Based on Prüfer's diaries, demonstrates how his antisemitism and work in the Arab world opposed him to Zionism. His antisemitism drew on stereotypes rather than racial theory. He blamed the Jews for the defeat of 1918, despising them for entering politics at that time. Prüfer's diary for 1942 records knowledge of the Holocaust and his sole concern that it might excite anti-German feeling. In 1943 he fled to Switzerland where, even after the war, his nationalism and antisemitism grew. He continued to admire Hitler and blamed the Holocaust on the SS. He accused the Allies of hypocrisy over the Holocaust as they had done nothing to stop it when they could.

Examines the continuity of German Foreign Office influence in the formulation of foreign policy under the leadership of Otto von Bismarck (1862-1890), Kaiser William II (1888-1918), the Weimar Republic (1919-1933), and Adolf Hitler (1933-1945)

Ultimately these cross purposes brought disaster, pulling a fatally weak and woefully unprepared Ottoman state into a global war, and unleashing vicious, internal ethnic repression that brought it defeat and dismemberment. The diaries and official reports of German spy and propogandist Curt Pruffer - translated here into English in their entirety for the first time - chronicle the complexities of the fragile Ottoman-German alliance from the perspective of a participant. Much like fellow soldier-scholar T.E. Lawrence, Pruffer and his colleagues tried to steal the loyalties of the Muslim subjects of the opposing sides. The book explores these episodes of sabotage, subversion and subterfuge - from managing spies to preparing for the attack on the Suez Canal in 1915 - and in the process sheds light onto the ways World War I played out across the Middle East. Complemented throughout by in-depth and meticulously researched footnotes, this primary source collection is an invaluable addition to the extant corpus of late Ottoman and World War I historical documents.

Christoph Kimmich s German Foreign Policy, 1918-1945: A Guide to Current Research and Resources is the most comprehensive guide to archival resources and published materials on the foreign policy of Weimar and Nazi Germany. This third edition differs from its predecessor by offering new and critical information on German archives that have since been consolidated and relocated after German reunification, on archival sources of hitherto unknown provenance, and on materials available on the Web.\*

The creation of the Foreign Office under Adenauer tells us much about the possibilities and limits of professional diplomacy in the mid-twentieth century. It also demonstrates three themes central to the early history of the Federal Republic: the integration of the new state into the international community, the cooptation of German elites and traditions by the new political system, and the creation of government in a state under foreign occupation. In this important study, Thomas Maulucci argues that, despite an improvised start and a considerable continuity of practice and personnel with pre-1945 Germany, the changed international anddomestic situation proved decisive in creating a ministry that could help to implement new directions in German foreign policy. In addition, Maulucci explores the interactions between international, political, and social history, contributing to a literature that bridges the gap between the pre- and post-World War Two eras that characterized previous writing on German history. Based on extensive research in German, American, British, and French archives, Adenauer's Foreign Office is the only English-language book of its kind. The troubling question of personnel continuity in the German diplomatic service is of considerable importance today, especially because of the Foreign Office's previous attempts to portray its past in the best possible light. Of interest to scholars and students of German history and politics as well as non-specialists, this book provides new insights into post-war diplomacy, the sociology of German elites, and the problems involved in creating a new government after losing a major war.

Since the end of World War II, historians and psychologists have investigated the factors that motivated Germans to become Nazis before and during the war. While most studies have focused on the high-level figures who were tried at Nuremberg, much less is known about the hundreds of SS members, party functionaries, and intelligence agents who quietly navigated the transition to postwar life and successfully assimilated into a changed society after the war ended. In A Nazi Past, German and American scholars examine the lives and careers of men like Hans Globke -- who not only escaped punishment for his prominent involvement in formulating the Third Reich's anti-Semitic legislation, but also forged a successful new political career. They also consider the story of Gestapo employee Gertrud Slotke, who exhibited high productivity and ambition in sending Dutch Jews to Auschwitz but eluded trial for fifteen years. Additionally, the contributors explore how a network of Nazi spies and diplomats who recast their identities in Franco's Spain, far from the denazification proceedings in Germany. Previous studies have emphasized how former Nazis hid or downplayed their wartime affiliations and actions as they struggled to invent a new life for themselves after 1945, but this fascinating work shows that many of these individuals actively used their pasts to recast themselves in a democratic, Cold War setting. Based on extensive archival research as well as recently declassified US intelligence, A Nazi Past contributes greatly to our understanding of the postwar politics of memory.

This book investigates the intent and policy of Nazi Germany in the Arab world from 1933 to 1944. It analyzes Germany's support for continued European domination of the Arab states of North Africa and the Middle East and Germany's rejection of truly sovereign Arab states in those regions.
