The Laws of War and Laws of International Conflict were not written with cyberspace in mind. Such things did not even exist yet. Patrick Lin states that there is a gap in policy, but also that there is a larger gap between developing the ethics behind the policies (Patrick Lin, Rowe, & Allhoff, 2012). Do laws exist for cyber-attacks? Well, not really.

The much ballyhooed issue of what constitutes the proverbial "act of war" in the cyber domain offers a good example. Although the phrase "act of war" is a political term, not a legal axiom, such phrases as "use of force" and "armed attack" do have legal meaning and could relate to a casus belli in terms of a force- ful response.11
