The New Science of Water—Dancing with Water

The New Science of Water is about the liquid crystalline phase of water and its effects on health, healing, and consciousness. Yet, from another perspective, the New Science, is also a very Old Science, more ancient than the Earth herself. It encompasses a path of wisdom that works in harmonious balance with the natural systems of the Earth.

A RARE BEAUTY. The romantically named Dancing Water Vineyard is home to some of New Zealand's earliest planted Pinot Noir and Chardonnay vines. Carefully selected and planted over thirty years ago, the founders' passion was for creating distinctive wines with individuality and character. The legacy continues today as our venerable old vines have matured gracefully to seduce wine lovers with concentrated flavour, complexity and a depth that lingers on the palette.

Water dancing is an act that ties together many of the novel's central themes: rebellion, freedom, love, skill, and memory. When Hiram was a little boy, his mother Rose and aunt Emma used to water dance, an act that involves dancing while holding a jar of water on one's head and trying not to let any of it spill. It is one of the ways in which enslaved people steal moments of joy for themselves in the midst of the degradation and brutality of slavery.
