...

Background and Identification The Inspiron 530s was introduced in 2007 for the consumer PC market. It was meant to be a midrange PC for budget conscious buyers when it was released. While this system could be purchased with Windows Vista (and was somewhat popular), it was released around the time Vista had stability and driver problems.

### Dell Inspiron 530 Specs - CNET

The Inspiron family generally only has laptops in its vast repertoire, but the Inspiron 530 was Dell's first desktop to use the name. Released in June 2006, the Dell Inspiron 530 comes in "tower form." The Inspiron 530 can be identified by examining the color of the computer and looking for the Dell logo in the front of the device. All models are white with a black "strip" coming down from the ...
