Description: Personal caption on photo reverse: "Sun. - Aug. 1, 1943. Metropolitan Theatre. The Densei Kyoku Stage Revue commemorating the 1st anniversary of Electrical Communication under the Japanese Military Administration." Manila, Philippines.

In the extension of the Japanese empire in the 1930s and 1940s, technology, geo-strategy, and institutions were closely intertwined in empire building. The central argument of this study of the development of a communications network linking the far-flung parts of the Japanese imperium is that modern telecommunications not only served to connect these territories but, more important, made it possible for the Japanese to envision an integrated empire in Asia. Even

Bookmark File PDF Densei

as the imperial communications network served to foster integration and strengthened Japanese leadership and control, its creation and operation exacerbated long-standing tensions and created new conflicts within the government, the military, and society in general.

A comprehensive reference for all involved with plants and gardens, whether they are growing, studying, or writing about them.
