The "secret" to unlocking discretionary energy

Combining elements of a reverse dictionary and a thesaurus, presents definitions for terms relating to specific subjects including the environment, the arts, clothing, religion, slang, furniture, and technology.

A standard dictionary will tell you the meaning of a word, or a thesaurus will give you a list of synonyms, but only Descriptinary directs you straight to the word itself. Descriptinary is particularly helpful when you are looking for a descriptive or technical term, or when you know the subject or meaning but not the word. This newly revised and updated edition provides indispensable glossaries, arranged by category and subcategory, that define and describe thousands of words. Finally, here is a reference tool that follows your train of thought and helps you reach your destination. Descriptinary defines thousands of terms, organized thematically into more than 20 completely up-to-date subject categories, including " Animals and Insects " Architecture " Art " Clothing " Electronics " Environment " Human Body and Mind " Language " Law " Magic and the Occult " Medicine " Occupations " Performing Arts " Religions " Sports " Tools " Weapons " And more This third edition contains an expanded and updated section on technology, including computers and the Internet, as well as many new sections, such as Physics, Chemistry, and Astronomy.

The book for when you know what it is, but not what it's called.

This book is concerned with bilingual thematic dictionaries (BTDs). The three chief aims of the research project are: 1) to identify the characteristic features of the bilingual thematic dictionary, 2) to gauge its usefulness, and 3) to make suggestions as to how it could be improved. Various approaches are adopted in order to reveal the nature of the BTD. The typological approach considers the lexicographic genres (bilingual, thematic, and pedagogical) which have been combined to create this hybrid reference work. Particular attention is paid to the BTD's immediate forerunner and closest lexicographic relative: the monolingual thematic learner's dictionary. Detailed textual analyses of contemporary thematic dictionaries identify the characteristic features of the macrostructure, microstructure, and other components from a structural perspective. In order to evaluate the usefulness of the BTD features identified, the textual analyses are supplemented by three pieces of user research involving a questionnaire (to elicit learners' opinions), a test (on the effectiveness of the access structure), and an experiment (to discover how a learner uses a BTD).

Our lives are supposed to be resplendent, radiant, and glorious. Instead, what most of us experience is a life filled with struggle, conflict, and illness. Relationshifting creates a bridge to a new life based upon Dr. Angela Longos more than forty years of clinical experience. Dr. Longo offers an overview of the eight bottom lines, which she defines as the eight major ways in which we block the flow of positive energy into our lives. She explains how to shift that energy to resplendent living by relationshifting through quantum resplendency quantum way of living. The Relationshifting workbook includes explanations and exercises using the following tools: Heartwaving is an easy-to-use technique used to shift old, unproductive patterns to resplendency. Bathwaves are Longos self-created energy patterns based upon her beliefs, attitudes, thoughts, habits, words, actions, values, and emotions. Love Letters are messages she sends to herself to guide her to living resplendency. Triunity shows her she is actually three beings in onepromoting understanding of her larger persons. Eternalbeing indicates the larger, unique purpose of her life. Muscle testing helps to assess her perceptions and patterns. Shifting the Eight Bottom Lines, the eight judgments that keep her from changing her Bathwaves to living resplendency. Relationshifting demonstrates the fact that when you are living in the resplendent way, life is EEEZYan eternal, emergent, entanglement as a zestful you.

Offers encouragemet to amateur writers who want to support themselves by writing. Describes the process from idea, research, query letters, and proposals to agents, contract negotiations, and promotion.
