Our range is available in Brass, Nickel Plated Brass or Stainless Steel.~~

DIN477 German Standard Cylinder Valve Outlets & Connectors ...

DIN 477 Gas cylinder valves for cylinder test pressures up to 300 bar - Valve inlet and outlet connections. standard by Deutsches Institut Fur Normung E.V. (German National Standard), 11/01/2020. View all product details

DIN 477 - Techstreet

Ham-Let have added the H-800KL, H-840 and H-850 options to the ever-popular H-800 Ball Valve series. H-800KL Cylindrical Valve The H-800KL range is replacing H-800L which was the large body version of the H-800 Ball Valves and is availableRead More »

DIN477 | FTI Ltd

Following is a summary of the German DIN 477 cylinder valve outlet fittings. The thread specifications are technically accurate, but the dimension 'X' is only shown as a reference dimension (thread I.D. or O.D.) that could be measured by someone with a cylinder in order to help determine what an unknown valve connection is.

German Standard DIN 477 Cylinder Valve Connections

GAS CYLINDER VALVES FOR CYLINDER TEST PRESSURES UP TO 300 BAR - PART 1: VALVE INLET AND OUTLET CONNECTIONS. Publisher: German Institute for Standardisation (Deutsches Institut für Normung) Published: 06-01-2019 Available Formats: PDF - German, Hardcopy - German

DIN 477-1 : 2012 GAS CYLINDER VALVES FOR CYLINDER TEST ...

DIN 477 German Standard Compressed Gas Cylinder Valves and Connections for specialty gases and industrial gases.

DIN 477 German - Air Liquide USA

We carry a line-up of the most common cylinder valve heads used in aviation oxygen systems. The European standard DIN-477-9 valve is available with or without a gauge. Call for availability if you require a different type of valve.

DIN 477-9 Valve - MHOxygen

Identifying Cylinder Valve Connections - Gascon

Standard (norwegian) cylinder valve threads - DIN 477: Hydrogen: W21,8 LH: male "DIN 1" Oxygen, CO2: W21,8 RH: male "DIN 6" Nitrogen, Argon, Helium: W24,32 RH: male "DIN 10" Nitrous Oxide: G3/8 RH: male "DIN 11" Acetylene: G3/4 RH: female ("DIN 12") Air: G5/8 RH: female "DIN 13" Thermolene, MAPP: W21,8 LH: female "DIN 15"

GA - Foreign Connection details from Gassarmatur AS

This standard applies to cylinder valves according to DIN EN ISO 10297 for compressed, liquefied and dissolved gases. This standard specifies the requirements for inlet and outlet connections of cylinder valves rated for cylinder test pressures up to and including 300 bar, if not otherwise specified.

DIN 477-1 - Gas cylinder valves for cylinder test ...

In these tables you will find the most common compressed gas cylinder outlet connections used with the gases and gas mixtures. The tables refer to the standards implemented in different countries, sometimes the with small variations. The DIN standard is used in most European countries.

Compressed Gas Cylinder Outlet Connections
