Different Types of Doctors & Medical Specialists Explained

Infectious disease doctors also require training in internal medicine or pediatrics. Ophthalmologists They treat diseases and conditions of the eyes and can perform eye surgery.

Types of doctors: Differences and what they do

At the start of the Western poetic canon (c. 800 BCE), when both the Hebrew Bible and the Homeric epics were codified, doctors and diseases are present only to a circumscribed degree. In The Iliad , Homer mentions 150 different wounds, and explains with some degree of anatomical accuracy why some are fatal; spears and arrows strike specific internal organs according to entry point and trajectory.

Poetry about Doctors and Diseases | Academy of American Poets

Doctors working in infectious diseases (ID) diagnose, investigate and treat infections caused by many micro-organisms such as bacteria, viruses, protozoa and fungi.
