Product (GDP) as a measure of economic growth GDP (Gross Domestic Product) measures the value of all final goods/services produced in an economy in a year. There are two methods used to work out the GDP value of an economy.

Bookmark File PDF Economic

~~Economic growth |
Edexcel Economics
Revision~~

Economic growth is an increase in the production of goods and services over a specific period. To be most accurate, the measurement must remove the effects of inflation. Economic growth creates more profit for businesses.
