For the two-semester A&P laboratory course. Help manage time and improve learning inside and outside of the lab The #1 best-selling Human Anatomy & Physiology Laboratory Manual helps students and instructors manage time inside and outside of the A&P lab classroom and works hand-in-hand with Mastering A&P, the leading online homework and learning program for A&P. The 13th Edition features dozens of new, full-color figures and photos in the review sheets, as well as revamped clinical application questions and critical thinking questions that reinforce the most important concepts from lab. Encourage students to prepare for lab by assigning recommended Mastering A&P activities for each lab exercise, including 18 pre-lab videos (8 are new to this edition), Building Vocabulary Coaching Activities, exercise review sheet assessment questions, art labeling activities, mobile-ready Practice Anatomy Lab(tm) 3.1 with customizable flashcards, and more. Thousands of assignment options in the Item Library are closely correlated with the print edition of the manual, making it easier than ever to create homework assignments that are aligned with your lab activities. Continuing to set the standard for the 2-semester A&P laboratory course, the lab manual complies with the illustration and presentation style of the best-selling Marieb/Hoehn Human Anatomy & Physiology text, but can accompany any A&P textbook. New customization options are available through Pearson Collections, as well as three conventional versions: Main (12th Edition), Cat (13th Edition), and Fetal Pig (13th Edition). Also available with Mastering A&P By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Mastering A&P assignments support interactive features in the lab manual, including pre-lab video coaching activities, bone, muscle, and dissection videos, Dynamic Study Modules, Get Ready for A&P, plus a variety of Art Labeling Questions, Clinical Application Questions, and more. Anatomy & Physiology, 7th Edition, the manual can be used with any two-semester text. The 27 concise, activity-based lab exercises explore fundamental concepts in anatomy & physiology and build students' observational and laboratory skills. The manual's workbook-style approach incorporates visual summary tables, reviews key information, and engages students with hands-on drawing, labeling, and writing activities that can be completed using handy tear-out review sheets. Each lab includes learning objectives and efficient summaries of key concepts, as well as a list of materials needed for conducting the lab. The 7th Edition adds dozens of new, full-color illustrations and photos plus new critical thinking and clinical application questions to the Exercise Review Sheets. To improve clarity and readability, the headings, exercise tabs, and tables feature more saturated colors.

For the one-semester human anatomy laboratory course. Everything students need for a successful lab experience With 30 exercises covering all body systems, a clear, engaging writing style, and full-color illustrations, Human Anatomy Laboratory Manual with Cat Dissections, 9th Edition provides everything needed for a successful lab experience. Visual Summary Tables present complex information, and "Why This Matters" boxes help students relate the lab activity to a real-life or clinical example. The 9th Edition features new Clinical Application Questions that challenge students to apply lab concepts and critical-thinking skills to real-world clinical scenarios. And new full-color illustrations and photos replace many black and white line drawings to help students differentiate among structures and more easily interpret diagrams. The lab manual complies with the illustration and presentation style of Human Physiology text, but can be paired with any human anatomy textbook.

For one-semester courses in A&P Lab. A Brief, Student-Friendly Lab Manual for One-Semester A&P--Now in Full Color Developed especially for a fast-paced, one-semester A&P course, Elaine Marieb and Pamela Jackson's Essentials of Human Anatomy and Physiology Laboratory Manual, 7th Edition provides 27 full-color, hands-on laboratory exercises, along with a built-in Histology Atlas. The Lab Manual can accompany any one-semester A&P text, but it is most effectively paired with Marieb and Keller's Essentials of Human Anatomy & Physiology, 12th Edition. Each lab exercise consists of a variety of easy-to-follow activities, all supported by a checklist of materials, a Pre-Lab Quiz, background information, learning objectives, and tear-out review sheets. The black and white figures in previous editions are now in full-color, and the 7th Edition further expands on its student-friendly writing style with updated terminology and review questions, streamlined content presented in tables, and a new, more intuitive design.

A streamlined, workbook-style approach to the A&P lab This full-color laboratory manual is designed for instructors who teach a two-semester anatomy & physiology lab course, but do not require the full range of laboratory exercises found in Marieb's best-selling Human Anatomy & Physiology Lab Manuals (Cat, Fetal Pig, and Main). This lab manual is written to complement Marieb's Anatomy & Physiology, Sixth Edition, but can be used with any two-semester text. Instructors will find 27 concise, activity-based lab exercises that explore fundamental concepts in anatomy & physiology and build students' observational and laboratory skills. Each lab is presented with learning objectives, cogent summaries of key concepts, and meaningful activities. For instructors who want their students to experience how to use a microscope, a complete exercise on its use and care can be found in Appendix A. The fully revised Sixth Edition provides a more active, workbook-style approach that incorporates more visual summary tables, streamlines information, and engages students with hands-on drawing and review activities. Each lab includes a list of materials needed for conducting the lab, a complete list of learning objectives at the beginning of each exercise to help students track their progress, and up-to-date terminology in accordance with Terminologia Anatomica and Terminologia Histologica. The lab manual also features a full-color, extensive Histology Atlas, integrated Review Sheets with new full-color art, and new art and photos that help bring A&P to life.

Key message: This full-color laboratory manual is designed for instructors who teach a two-semester introductory anatomy & physiology course, but do not require the full range of laboratory exercises found in Marieb's best-selling Human Anatomy & Physiology Lab Manuals (Cat, Fetal Pig, and Main). Though this lab manual can be used with any two-semester text, it will be most effectively used with Marieb's Anatomy & Physiology, Third Edition. Instructors will find 27 concise, activity-based lab exercises that explore basic concepts in anatomy & physiology. For instructors who want their students to experience using a microscope, a complete exercise on its use and care can be found in Appendix A. Each lab is presented with learning objectives, cogent summaries of key concepts, and meaningful activities that build students' observational and laboratory skills. Review sheets are now integrated to conveniently follow each lab exercise. The lab manual also features a full-color, extensive and newly revised Histology Atlas.
