Expectations Investing Reading Stock Prices

Instead of estimating the value, expectations investing is assessing what the market thinks of the future to justify the current price. In a way, this is still similar to value investing. The author says that investors do not earn above average returns on stocks that are priced in accordance with future performance even if the underlying companies create value.

Expectations Investing: Reading Stock Prices for Better ...

In a sharp break from standard practice, expectations investing is a stock-selection process that uses the market's own pricing model, the discounted cash-flow model, with an important twist: Rather than forecast cash flows, expectations investing starts by reading the expectations implied by a company's stock price. It also reveals how revisions in expectations affect value.
