Tweet Append below questions and answers on interest computation normally appearing in examination questions in LCCI Advanced Business Calculation: 1. Find the simple interest earned in 6 years when \$10,000 is invested at a rate of 10% per annum. What is the total amount at the end of 6 years? 2. Find the principal invested [0]

~~Questions & Answers On Financial Mathematics Interest ...~~

Since the solution of financial problems implies the commensuration of values of expenses (expenditures) and the results (earnings), the existence of some common measure to evaluate the cost (value) of the distributed resources is supposed. In practice, the cost of the resources (assets) is measured in these or those currency units.
