Quantum Physics Could Finally Explain Consciousness, Scientists Say

A respectful counterpoint to an op-ed article published earlier this week declaring quantum computing a greater threat than AI.

Counterpoint: AI is far more dangerous than quantum computing

While having their own unique areas of expertise and resources, the NQISRCs are all aligned to the same mission—the advancement of quantum information science.

How the NQISRCs are harnessing the quantum revolution

Physicists from TU Delft, ETH Zürich and the University of Tübingen have built a quantum scale heat pump made from particles of light. This device brings scientists closer to the quantum limit of ...

Quantum heat pump: A new measuring tool for physicists

In 2019, Google showed that its Sycamore quantum computer could solve a problem that no ordinary computer could handle - but now a new algorithm gives non-quantum devices the edge ...
