Anatomy and Physiology Study Guides
and Reviewer - Nurseslabs

The gastrointestinal tract or the
alimentary canal as some people call it has
lots of different parts. It ' s basically a long
tubing system and its main purpose is the
physical breakdown of food into nutrients

Get Free Gastrointestinal Anatomy And Physiology

and then the absorption of those nutrients
vitamin water and electrolytes. Not
everything that we eat gets absorbed, so
there are always some waste and these
wastes are eliminated through feces.
