 American President George Washington's teeth began to fall out before he reached the age of 30, and he eventually lost them all. During his lifetime, he had at least four sets of dentures made to replace them.

George Washington's teeth - Wikipedia
Deep within one of Washington's account books is an entry which details Washington's purchase of nine teeth from "Negroes" for 122 shillings. Whether the teeth provided by the Mount Vernon enslaved persons were simply being sold to dentist Dr. Jean-Pierre Le Mayeur or whether they were intended for George Washington, is unknown at this time.

George Washington's Teeth · George Washington's Mount Vernon
Home George Washington Health The Trouble with Teeth George Washington and Slave.. According to George Washington's ledger, on May 8, 1784, he paid 6 pounds 2 shillings to "Negros for 9 Teeth on Acct of Dr Lemoin". 1 George Washington Ledger B, 1772-1793, May 8, 1784, Library of Congress.

George Washington and Slave Teeth · George Washington's ...
By 1781, Washington was wearing partial dentures, and by 1789, he had only one tooth left in his mouth. That year, he started wearing full sets of dentures made from ivory and human teeth.

What were George Washington's teeth made of? (It's not ...
Dental issues plagued Washington for most of his adult life. He began losing teeth as early as his twenties, and was eventually forced to wear several sets of unsightly and painful dentures. Rather...

Did George Washington Have Wooden Teeth? - HISTORY
What Were Washington's Teeth Made Of? Washington first had trouble with his teeth in his twenties, and it's one reason why you never see him smiling in any of his portraits. Due to a poor diet and a lack of dental hygiene, he was forced to use four sets of dentures throughout his life. It is simply not true that his teeth were wooden.

Real Story Behind George Washington's False Teeth ...
Washington's teeth were crafted from gold leaf, lead plates, hippopotamus ivory, and the teeth of cows, horses, and, likely, Washington's slaves.

How George Washington's teeth became an American legend
Although George Washington brushed his teeth regularly, by the time he took the oath of office as president at age 57, he was wearing full dentures. Contrary to popular myth, Washington's false...

Did George Washington Have Wooden Teeth?
Next to the cherry tree legend, George Washington's supposed wooden teeth are possibly the most repeated myth about the first president. The truth is, though Washington was famous for his enviable...

5 Myths About George Washington, Debunked - HISTORY
The only documentation of which we are aware of George Washington purchasing teeth from slaves is a brief notation in his ledger books. 1 The physical evidence, a pair of Washington's dentures that includes human teeth, is part of the collection at Mount Vernon. 2 As to the circumstances surrounding the creation of these dentures, the best historians can do is make an educated guess. Like all historical theories, this conclusion should be grounded in historical context, supplemental ...

Did George Washington's false teeth come from his slaves ...
Researchers hoping to dispel George Washington's image as a stiff-jawed, boring old man are taking a bite out of history through a high-tech study of his famous false teeth.

George Washington's false teeth not wooden
When George Washington opened his mouth 225 years ago this Wednesday at New York's Federal Hall to take the oath as the first president of the United States, he wore awkward-fitting, painful,...

George Washington's Weakness: His Teeth - The New York Times
George Washington's teeth were ravaged by disease and primitive dental care. His first tooth was pulled when he was in his mid-twenties. By the time he was sworn in as president, at the age of fifty-seven, he had one tooth left. That soon got yanked out, too.

Were George Washington's Teeth Taken from Enslaved People ...
Starting at the age of twenty-four, George Washington lost on average a tooth a year, and by the time he was elected president, he had only two left! Illustrated in watercolors with subtle humor by Brock Cole, George Washington's Teeth is followed by a four-page time line featuring reproduced period portraits of Washington.

George Washington's Teeth: Chandra, Deborah, Comora ...
When George Washington became president on April 30, 1789, he only had one tooth in his head, a single premolar poking up from his gums. A combination of bad genes and even worse 18th century...

George Washington Didn't Have Wooden Teeth-They Were Ivory ...
George Washington's teeth is based on letters, diaries, and other historical documents to recall George Washington's struggle with dental hygiene. This book shows Washington's battle with keeping his teeth in a hilarious way that gets students laughing while learning about key characteristics of Washington such as loyalty, bravery, and a strong work ethic.

George Washington's Teeth by Deborah Chandra
Americans widely believe that George Washington had wooden teeth. But his dentures were, in fact, constructed from "chunks of ivory from hippopotamuses, walruses, and elephants," along with teeth...

George Washington was a liar who cheated his way to the top
One of the biggest misconceptions about George Washington is that his teeth were made of wood. His dentures have a much more complicated - and darker story. ...
