Handley Page

The Handley Page Limited was a British aerospace manufacturer. Founded by Frederick Handley Page (later Sir Frederick) in 1909, it was the United Kingdom's first publicly traded aircraft manufacturing company. It went into voluntary liquidation and ceased to exist in 1970.

### Handley Page — Wikipedia

The Handley Page Type O was a biplane bomber used by Britain during the First World War.When built, the Type O was the largest aircraft that had been built in the UK and one of the largest in the world. There were two main variants, the Handley Page O/100 (H.P.11) and the Handley Page O/400 (H.P.12).. The aircraft were used in France for tactical night attacks on targets in German-occupied ...

### Handley Page Type O — Wikipedia

Sir Frederick Handley Page, CBE, FRAeS (15 November 1885 – 21 April 1962) was an English industrialist who was a pioneer in the aircraft industry and became known as the father of the heavy bomber.. His company Handley Page Limited was best known for its large aircraft such as the Handley Page O/400 and Halifax bombers and the H.P.42 airliner. The latter was the flagship of the Imperial ...

### Frederick Handley Page — Wikipedia

The Handley Page HP.52 Hampden was a British twin-engine medium bomber of the Royal Air Force serving in the Second World War. With the Whitley and Wellington, the Hampden bore the brunt of the early bombing war over Europe, taking part in the first night raid on Berlin and the first 1,000-plane raid on Cologne.

### Handley Page Hampden | Military Wiki | Fandom

The name of this aircraft is Handley Page Victor which served for the British Royal Air Force after it was designed and manufactured by the Handley Page Aircraft Company back in the early 50s. The aircraft served the Riyal air Force as their strategic bomber during the era of the Cold War.

### Amazing facts about the Handley Page Victor, the Bomber —

The Handley Page O/400 was a refinement of the earlier O/100, which was designed to an Admiralty specification for a dedicated bomber aircraft — at the time (1914) this was a revolutionary idea. O/100s were operational in France in 1916, and revision of the design (increased fuel capacity and better engines) led to the hugely successful O/400 bomber.

### Handley Page O/400 | Bomberaircraft Wiki | Fandom

The Handley Page O/400 was a 1910s British heavy bomber, and one of the first strategic bombers. The O/400 was an improved version of the O/100.

### Handley Page O/400 | Aircraft Wiki | Fandom

The Handley Page Victor was a British jet-powered strategic bomber, which served during the Cold War. It was the third and final V-bomber to be operated by the Royal Air Force (RAF), the other two being the Avro Vulcan and the Vickers Valiant. The Victor had been developed as part of the United Kingdom's airborne nuclear deterrent.

### Handley Page

The O/400 model series by Handley Page aircraft firm was the principle heavy bomber of the RAF by the end of the First World War. The O/400 was directly descended from the previous O/100 model series with the "100" and "400" designations assigned to each model depicting the horsepower output of the engines.
