considerable and growing amount of evidence that media campaigns can change population health behaviours. New forms of media (that is not just the 'traditional' press and television) can be used to reach large audiences quickly and relatively cheaply with and with repeated exposure to desirable public health messages.

~~Public Health and the (New) Media~~  
medical encounter. New media facilitate this pre-, during, and post-visit continuum and present an opportunity to improve communication by offering access, convenience, and consistency. But technological advancements also present new challenges such as the lack of standard-ized guidelines, problems of reimbursement, and legal and ethical

The media — everything from television, radio, and film to games, advertising, and social media outlets like Facebook and Twitter — can have significant impacts on individual and population health. Exposure to media, especially among youth, may affect health behaviors such as substance use, sexual activity, and eating habits.

\*The "Overview" juxtaposes characteristics of the new media (interactive, connected, and user-driven) with the three criteria for health care improvement: increased access, improved quality, and cost management. It offers a New Media and Health Care matrix of criteria for building and evaluating emerging health care systems.

The term media refers to the predominant means of communication (such as television and newspapers), particularly of mass communication, hence the term mass media. The new media are those types of media that use digital technology (e.g. social media and the use of the internet). This is as opposed to " old media " , which refers to traditional forms of media, such as print media (e.g ...

Influence audiences in various ways. New media, such as the Internet, allow a new kind of experience (Castells 1996). We must, therefore, understand popular media if we are to understand experience and its rendering in narrative forms. Yet these two fields of study – media studies and the sociology of health
