## How to teach the SH Sound | Mommy Speech Therapy

Ask your child to say the long /e/ sound as a whisper, and then to pull the corners of their mouth together into a kiss shape. This should result in the /sh/ sound. After your child can successfully make and use the /sh/ sound by itself, practice with syllables, small words, and eventually sentences. Visual Cues.

Now inside this 'scripts directory', create a new file named hello.sh using the cat command: `cat > hello.sh`. Insert the following line in it by typing it in the terminal: `echo 'Hello, World!'` Press `Ctrl+D` to save the text to the file and come out of the cat command. You can also use a terminal-based text editor like Vim, Emacs or Nano. If you are using a desktop Linux, you may also use a graphical text editor like Gedit to add the text to this file.

## How to Create and Run Bash Shell Script [Beginner's Guide]

Where things get tough is when you're trying to make something that people genuinely give a shit about. You don't want your dream to die in the chamber, because nobody read it, watched it ...

## How To Make Something People Give A Shit About | Observer

Specify the pathname to the script file (rather than typing in `inshell.sh`) as a security measure. The shell wants to make sure it is running the correct `install.sh`, requiring you to specify its exact location. The only exception is if your script is located in a directory listed in your system's `PATH` environment variable.

Fold the bottom half of the parchment paper over the top half so it covers the kief. You can even fold the parchment several more times to create a little packet. Place the parchment paper on an iron-ready surface (an ironing board works great). Place the hand towel or t-shirt over the parchment paper.
