Experience the human side of development Papalia helps students experience the human side of development by exposing them to culture and diversity, immersing them in practical application, and helping them study smarter through personalized learning and reporting.

Experience a program that connects students to the real world. McGraw-Hill's Milestones is a groundbreaking, longitudinal video series that tracks the development of real children as they progress through the early stages of physical, social, and emotional development during the first few weeks, months, and years of their lives. Milestones provides a unique, experiential learning environment that can only be achieved by watching real human development as it happens. Additionally, the Research in Action feature highlights interesting and timely topics. Experience the diversity of the human experience. The 13th edition of this classic best-seller retains the extensive and integrated cross-cultural and multicultural coverage as previous editions. Experience a program that helps students navigate the vast amount of material in the course. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they

need it, so that your class time is more engaging and effective. Our LearnSmart Advantage adaptive study tools increase students' efficiency in studying by identifying what they know, and more importantly what they don't know, providing immediate remediation for the areas in which they are struggling. At the same time, instructors have access to powerful visual reports allowing them to quickly see where students' strengths and weaknesses lie. Connect Lifespan takes your instruction and your students' learning experience to the next level without requiring hours of setup whether you are teaching face-to-face, online, or in a hybrid setting.

The 11th edition of this classic best-seller retains the extensive and integrated cross-cultural and multicultural coverage, the proven Guidepost-Checkpoint learning system, and the balance between research and real-life applications that have made this text a long time favorite of students and faculty. In the warmly-written and engaging style that is their hallmark, Papalia, Olds, and Feldman once again paint an engaging chronological portrayal of development through the lifespan. This new edition features enhanced treatment of brain development and evolutionary psychology research as well as new Research in Action features highlighting interesting and timely topics.

The new edition retains the extensive cross-cultural and multicultural coverage, the innovative pedagogical learning system, and the balance between research and real-life applications that have made this text a favorite of students and professors alike. In the warmly-written and engaging style that is their hallmark, Papalia, Olds, and Feldman continue to provide a chronological view of lifespan development. The tenth edition expands the coverage of cultural and historical influences on development, features the latest research, and introduces marginal callouts integrating the "LifeMap" Student CD-ROM with key concepts in the text.

Experience Human Development 12e allows you to: Experience a program that connects students to the real world. Our Milestones video program allows students to witness real life as it unfolds via a customizable, assignable and assessable platform. Additionally, our new Research in Action feature highlights interesting and timely topics. Experience the diversity of the human experience. The 12th edition of this classic best-seller retains the extensive and integrated cross-cultural and multicultural coverage as previous editions. Experience a program that helps students navigate the vast amount of material in the course. Now with Connect Lifespan, Papalia 12e allows students to connect with real life and the real world. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

This revised 7th edition of the text combines research and applications with real-life examples to help readers apply the material to realistic situations. It includes thorough coverage of cross-cultural topics and issues facing the disabled.

The 11th edition of this classic best-seller retains the extensive and integrated cross-cultural and multicultural coverage, the proven Guidepost-Checkpoint learning system, and the balance between research and real-life applications that have made this text a long time favorite of students and faculty. In the warmly-written and engaging style that is their hallmark, Papalia, Olds, and Feldman once again paint an engaging chronological portrayal of development through the lifespan. This new edition features enhanced treatment of brain development and evolutionary psychology research as well as new Research in Action features highlighting interesting and timely topics.

This work clearly and concisely delivers the most current research findings in the field of adult development and aging.

A new entry for the growing topically-organized segment of this market, *Child Development: A Topical Approach* presents pivotal research and theories in a more readable, accessible style than books currently available. This first edition teams Diane Papalia's teaching and writing expertise with Ruth Feldman's professional writing, and it introduces Dana Gross – a child development researcher and professor at St. Olaf's College in Minnesota. Applauded by reviewers for its combination of research coverage with applications and real-life examples, this new text also includes Papalia's hallmark of superior coverage of cross-cultural and social policy topics, and a new emphasis on the history of child psychology.

This chronologically organized text, designed for the mainstream Human Development course, continues to showcase the author team's trademark of clear, accessible writing. The Eighth edition introduces a new pedagogical learning system, making the text even more valuable and easy-to-use for students. Applauded by adopters for its combination of research coverage with applications and real-life examples, the text continues to include superior coverage of cross-cultural topics and issues facing the disabled, in addition to exceptionally good coverage of health issues and applications.

This fully-revised twelfth edition continues to provide the extensive cross-cultural and multicultural coverage, the innovative pedagogical learning system, and the balance between research and real-life applications that have made *A Child's World* a favorite of students and professors alike. In the warmly-written and engaging style that has become their hallmark, Diane Papalia and Ruth Feldman continue to provide a chronological view of child development. The new edition includes a new feature, *Did You Know...?*, introducing each chapter by highlighting interesting and enlightening findings mentioned in the chapter.
