Mathematics: analysis and approaches guide

Mathematics guide 5 Mathematics across the IB continuum The IB continuum of international education provides a progression of learning for students aged 3–19. In the IB Primary Years Programme (PYP), mathematics is viewed primarily as a vehicle to support inquiry, providing a universal language through which we make sense of the world around us.

The IB recommends 240 teaching hours for HL subjects and 150 hours for SL. Subjects at HL are studied in greater depth and breadth than at SL. At both levels, many skills are developed, especially those of critical thinking and analysis. At the end of the course, students' abilities are measured by means of external assessment.

Mathematical studies SL guide - Eagle Rock High School

The IB DP mathematics standard level (SL) course focuses on introducing important mathematical concepts through the development of mathematical techniques. The intention is to introduce students to these concepts in a comprehensible and coherent way, rather than insisting on the mathematical rigour required for mathematics HL.

being replaced by two “routes” that can be taken at either a Standard Level (SL) or Higher Level (HL). The two routes are “Analysis & Approaches (AA)” and “Applications & Interpretations (AI)”. This creates 4 brand new subjects: AA SL, AA HL, AI SL, AI HL. The AA route is similar to the current SL & HL courses and traditional higher level mathematics pathways, whereby ...

can choose a second subject from groups 1 to 5 instead of a group 6 subject. Normally, three subjects (and not more than four) are taken at higher level (HL), and the others are taken at standard level (SL). The IB recommends 240 teaching hours for HL subjects and 150 hours for SL. Subjects at HL are studied in greater depth and breadth than at SL.
