With a continued emphasis on key empirical findings and the theory stemming from this research, this book will equip you with a deep and contextualised understanding of this fascinating area.

~~Introduction to Forensic and Criminal Psychology, 6th Edition~~

Now available in a sixth edition, An Introduction to the Psychology of Hearing is the leading textbook in the field of auditory perception, also known as psychoacoustics. The textbook's longevity and loyal readership can be attributed to the accessible manner in which it describes the relationships between the characteristics of the sounds that enter the ear and the sensations that they produce.
