Introduction To Robotics Ysis Control

DEEP Robotics, a leading Asian intelligent quadruped robotics manufacturer, recently announced the official release of the Jueying X20 hazard detection and rescue robot dog solution. With the ...

DEEP Robotics Releases Jueying X20 Hazard Detection & Rescue Robot Dog Solution

Like a newborn animal, a four-legged robot stumbles around during its first walking attempts. But while a foal or a giraffe

needs much longer to master walking, the robot learns to move forward ...

Robot dog learns to walk in one hour

Continuing the tradition of offering "Extreme Super Summer" classes, Caldwell Community College and Technical Institute (CCC&TI) Engineering Academy instructor Freda Parker led a group of elementary ...

Campers learn to program robots

Rise in number of rehabilitation procedures in persons after surgeries spurred adoption of robotic rehabilitation technologies; growing use of assistive products in elderly and people with ...
