General methods of test for pigments and extenders –. Part 9: Determination of pH value of an aqueous suspension. Méthodes générales d'essai des pigments et matières de charge – Partie 9: Détermination du pH d'une suspension aqueuse. INTERNATIONAL STANDARD. ISO 787-9.

General methods of test for pigments and extenders

Abstract This part of ISO 787 specifies a general method of test for determining the resistivity (specific resistance) of the aqueous extract of a pigment. The method is applicable to all pigments and extenders, except pigments that are substantially soluble in water.

ISO - ISO 787-14:2002 - General methods of test for ...
