Technology Officially, ISO/IEC 27032 addresses “ Cybersecurity ” or “ the Cyberspace security ” , defined as the “ preservation of confidentiality, integrity and availability of information in the Cyberspace ” .

ISO/IEC 27032 cybersecurity
guideline

ISO/IEC 27032:2012(E) The guidance in this International Standard is limited to the realization of the Cyberspace on the Internet, including the endpoints. However, the extension of the Cyberspace to other spatial representations through communication media and platforms are not addressed, nor the physical security aspects of them.
