JIGS AND FIXTURES:
Non-standard
Clamping Devices:
Grant ...

The most common type of jig is the drill jig, which guides the drill bit for creating holes at desired locations. Using of drill jigs increases production rate

Read PDF Jigs And Fixtures

drastically by
eliminating the time
spent using a square
scriber, height gauge,
center punch, etc. The
fixture is the tool
which holds the work
piece with the
machine bed
precisely at the
desired location.

Jigs and Fixtures -
Applications and

Read PDF Jigs And Fixtures

Difference Between ...

Jigs and Fixtures are production tools used to accurately manufacturing duplicate and interchangeable parts. They are specially designed so that a large number of components can be machined or assembled identically, and to

Read PDF Jigs And Fixtures

ensure standard interchangeability of components. They eliminate the necessity of a special set up for each individual part.
