Learning Disabilities and Related Mild Disabilities ...

Learning disabilities and related mild disabilities are conditions that impede learning for many children, adolescents, and adults, affecting their schooling and their adult lives. Some states have categorical certifica-tion and programs for specific categories of special education, such as for learning disabilities, or emotional/behavioral disorders.

Learning Disabilities and Related Mild Disabilities, 12th Ed.

Students with Mild General Learning Difficulties (MGLD) have significantly below-average general intellectual functioning (Griffin & Shevlin 2011; NCSE 2014; Westwood 2015). This is reflected in a slow rate of maturation, reduced learning capacity and inadequate social adjustment. MGLD may also manifest itself in delayed conceptual development, difficulties in expressing ideas and feelings in words, a limited ability to abstract and generalise content learnt, limited attention-span and poor ...

Learning Disabilities and Related Disabilities: Strategies ...

One of the most common learning characteristics of children with mild disabilities, indeed all disabilities, is that they have difficulty mastering academic content. In addition, these students frequently have difficulty with social behaviors and in finding appropriate work once their formal schooling ends (Olson & Platt, 2000).

What are Mild Disabilities?

People with learning disabilities do not learn certain skills as quickly as other people and may therefore need extra help in certain aspects of their lives. The specific skills in question will depend upon the type of disability. People with mild learning disabilities may live alone, travel independently, and work.
