Adjacent angles Practice A continued For use with the lesson " Describe Angle Pair Relationships " Lesson 1.5 Geometry 1-64 Chapter Resource Book Lesson 1.5 CS10\_CC\_G\_MECR710761\_C1L05PA.indd 64 4/27/11 2:32:49 PM

Practice A 1.5 For use with the lesson " Describe Angle ...

Lesson Narrative. In this lesson, students learn two constructions: a line perpendicular to a given line through a point on the line, an angle bisector. For the perpendicular line construction, students rely on their experience with the perpendicular bisector construction. The angle bisector construction is then connected to the perpendicular line construction with the observation that constructing a perpendicular line is the same as bisecting a straight angle.
