A critical system aboard the Voyager 1 probe which was sending garbled data about its status has been fixed but engineers have fixed the issue but are still seeking the root cause. Earlier this ...

### Voyager 1 spacecraft computer problem fixed

NASA's venerable Voyager 1 spacecraft has reached a key milestone. The Voyager 1 probe launched 45 years ago, on Sept. 5, 1977, just weeks after its twin Voyager 2 but soon overtaking it.

### NASA's iconic Voyager 1 marks 45 years in space

The Voyager probes began their trek to the edge of the unknown in 1977, and they're still operating all these decades later. Earlier this year, NASA started to get garbled communications from ...

### NASA Solves Voyager 1 Mystery Glitch, Finds Another

That situation continues for 2023, leaving the Pacifica as the Chrysler van offered for public sale. It's possible that you can find a Chrysler Voyager for sale on the used market.

### 2023 Chrysler Lineup: Waiting for the All-Electric Future

On that day, exactly 45 years ago today, those hardworking engineers at NASA were out there launching one of the American space agency's most famous probes: Voyager 1. Confusingly launched just ...

### NASA's Voyager 1 Probe Turns 45 Today

Engineers have fixed an issue with the Voyager 1 probe, one of the two most distant manmade objects in the universe. A strange issue affecting the Voyager 1 spacecraft's control system was first ...

### Glitch fixed on Voyager 1 probe, but underlying cause still a mystery

The Voyager 1 and Voyager 2 space probes launched 45 years ago, the first on Aug. 20, 1977 and the second on Sept. 5, and they are now the farthest human-made objects from Earth, at about three ...

### After 45 years in space, the Voyager probes are just starting out

Earlier this year, the array recorded 15 minutes of data from Voyager I, the space probe launched in 1977 to explore the furthest reaches of our solar system and beyond. The detection marks the ...

### Radio observatory records signals from Voyager satellite launched almost 45 years ago

The model spacecraft represents two famous satellites: Voyager 1 and 2. Some of the visitors present had helped build the Voyagers. More had spent decades interpreting their transmissions.

### 45 years later, 'Johnny B. Goode' is rocking through space, and Voyager mission is still 'like magic'

Engineers have repaired an issue affecting data from NASA's Voyager 1 spacecraft. Earlier this year, the probe's attitude articulation and control system (AACS), which keeps Voyager 1's antenna ...

### Engineers solve data glitch on NASA's Voyager 1

NASA's Jet Propulsion Laboratory announced Tuesday it solved a computer problem that was causing the Voyager 1 spacecraft to send garbled information about its status, which engineers don't ...

**NASA Fixes 'Critical System' Issue On Voyager 1—No Long-Term Problems Expected**

It's been 45 years since NASA's Voyager spacecraft blasted off from Earth, but the twin explorers still call home from billions of miles away. "We do the 'Hello, are you OK?' call once a ...

**JPL tries to keep Voyager space probes from disconnecting the world's longest phone call**

NASA can beam a signal to Mars in five minutes. The Voyager 1 spacecraft is so far away, it takes almost 22 hours to receive a radio message. Now some 14.6 billion miles from Earth, the agency's ...

**NASA fixes weird glitch on the farthest space probe in the cosmos**

Back in May, NASA reported that the Voyager 1 space probe was sending back jumbled or inaccurate telemetry data. The probe itself seemed to be in good shape, with a signal that's still strong ...
