As far as I know, IH

balers up to the 47 were the only ones to use the McCormick knotter. And IH traded on it: you can see the word McCormick above the International on the sticker on the plunger crank cover in the photo. They had two twine discs, over-centre keeper blade (for the 47 they

added a spring-loaded
keeper blade), fixed
twine knife.

Forgot to mention,
the Service Manual
covers 45, 46, 50, 55,
and 56 twine balers,
so there is a good

possibility the needles were used on several models. Try your nearest CNH/IH dealer and they may be able to at least verify if the part exists on several models -- then try the salvage yards.

worthy. I need to pick it up and pull or haul it about 400 miles.

Not sure of how big a trailer I would need to haul it. Thanks.
