Most medico-legal clinicians will form relationships with solicitors, or med-legal work agencies. When you first start out, it may take you some time – even a year or two, to become ‘known’. In other words, if you’re going into medicolegal work, you need to think of the long-game, and get your systems and processes in order from the outset.

The cordial patient-doctor relationship has undergone drastic changes due to the corporatization of medical profession. A well-publicized malpractice case can ruin the doctor’s career and practice. So, the best way to handle medico-legal issues is by preventing them. This article outlines common medico-legal issues and respective preventive measures in safeguarding the doctor against negligence suit.
