Still, it ' ll be the fibre of this car with which it ' ll be aiming to claim it: the second-generation Leaf, complete with sharper looks, more power, more battery range, better onboard technology –...

Nissan Leaf Review (2020) | Autocar

Nissan sought to make the Leaf appealing to mainstream drivers by giving it a familiar five-door hatchback design. The body has a sharp V-shape design with large, up-slanting headlights that split and redirect airflow away from the door mirrors, and the bottom of the car has aerodynamic panelling. The battery, the heaviest part of most electric vehicles, is situated below the seats and rear ...

Nissan Leaf - Wikipedia

Nissan Leaf hatchback (2017 -) It's long been the go-to choice for electric car buyers, and has topped the electric car best-sellers lists in the UK for almost as long as they've existed.
