The Kenya Gazette is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or policy as well as other announcements that are published for general public information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week.

In today's socially networked and highly competitive world, it is imperative that marketers are always truthful because customers eventually find out if they have been misled. This can lead to their angst with the company going viral, thereby destroying the company's reputation. Marketing Management advocates 'marketing based on absolute truth'. Also brand image is sensitive to market sentiments. Brands can be in danger: one wrong product or one shoddy campaign can destroy a brand built over years. Companies must align everything that they do with the core spirit of their brands. Further, when everything seems to go digital, it is important that marketers keep in mind that customers are primarily interested in their products/services. The book advocates that superior products and services will always be central to marketing. Key Features Best Practices • Researched, implemented, and result-driven practices taken from leading companies across diverse industries throughout the world • Marketers can adopt these practices to elevate individual and organizational performance Corporate Insights • Examples of marketing concepts being implemented by well-known Indian companies and brands • Latest moves of companies and brands as they cope with competition and environment Case Studies • A brief case study after each chapter, focusing on specific issues dealt within the chapter Specialized Questions • Questions meant to make students ponder upon various aspects of marketing and challenge the existing paradigms
