components like memory, performance and resources using Oracle Database 11g. This Oracle Database 11g: Administration Workshop II Release 2 training takes the database administrator beyond the basic tasks covered in the first workshop.

## Oracle 11g: Database Administration

Automatic undo management is the default for Oracle Database 11g (and later releases). Manual undo management is supported for backward compatibility with Oracle8i and earlier releases but requires more DBA interaction. In manual undo management mode, undo space is managed through rollback segments (not through undo tablespace).
