Vast areas of the Netherlands seem to be filling up with low-cost housing, low-rent offices, warehouses and other low-density structures--producing a vast sea of architectural mediocrity. This book examines the prospects for animating this tendency. Conceived and edited by Winy Maas and Jacob van Rijs with Richard Koek and produced by MVRDV, FARMAX reads as an architectural narrative composed of studies and designs made by MVRDV and students from Delft University of Technology, the Berlage Institute and the Rotterdam Academy of Architecture and Urban Planning, along with contributions by other authors.

School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: □ types of school refusers □ why children refuse to go to school □ symptoms □ short term and long term consequences □ accurate assessment □ treatment options □ what parents can do □ what schools can do □ dealing with anxious high achievers □ how to help children on the autism spectrum with school refusal
