Plentiful Energy: The Story of the Integral Fast Reactor ...

Plentiful Energy: The Story of the Integral Fast Reactor: The Complex History of a Simple Reactor Technology, with Emphasis on Its Scientific Bases for Non-Specialists. The Integral Fast Reactor (IFR) is a fast reactor system developed at Argonne National Laboratory in the decade 1984 to 1994. The IFR project developed the technology for a complete system; the reactor, the entire fuel cycle and the waste management technologies were all included in the development program.
