John Bozzelli is the principal of Injection Molding Solutions, a one-man company that has him on the road almost every day of the week, often with General Polymers ... melt pressure, fill time, and ...

[Scientific Molding, Part 1: Filling](#)

The polymers, similar in properties but different ... in the extruder to adjust molecular weight distribution and increase melt-flow index. The final product, Controlled Rheology Polypropylene (CRPP), ...

[Atofina reinforces nylon 11, 12 presence](#)

Over a two-year period, silicone manufacturers developed commercially available self-bonding silicones for the medical market that could chemically bond to rigid thermoplastic polymers during ... data ...

[Two-Shots: Molding for Silicone and Thermoplastics](#)

ImerShield™ performance minerals are mineral-based synergists developed for flame retardant (FR) applications in polymers ... corrosion or improve rheology and melt flow. Intumescent FR ...

[IMERY'S RELEASES NEW PRODUCT: ImerShield™ Flame Retardants](#)

Orientational ordering of a banana-shaped solute molecule in a nematic calamitic solvent by 2H-NMR spectroscopy: an indication of glasslike behavior.

[Physical review, E, Statistical, nonlinear, and soft matter physics](#)

Risk Disclosure: Trading in financial instruments and/or cryptocurrencies involves high risks including the risk of losing some, or all, of your investment amount, and may not be suitable for all ...

[Graft Polymer UK PLC \(GPL\)](#)

ImerShield™ performance minerals are mineral-based synergists developed for flame retardant (FR) applications in polymers. Due to their engineered ... reduce equipment corrosion or improve rheology ...

[IMERY'S RELEASES NEW PRODUCT: ImerShield\(TM\) Flame Retardants](#)

Risk Disclosure: Trading in financial instruments and/or cryptocurrencies involves high risks including the risk of losing some, or all, of your investment amount, and may not be suitable for all ...
