A Recipe for Training Neural Networks. Apr 25, 2019. Some few weeks ago I posted a tweet on " the most common neural net mistakes " , listing a few common gotchas related to training neural nets. The tweet got quite a bit more engagement than I anticipated (including a webinar:).Clearly, a lot of people have personally encountered the large gap between " here is how a convolutional layer ...

Description. This text serves as a cookbook for neural network solutions to practical problems using C++. It will enable those with moderate programming experience to select a neural network model appropriate to solving a particular problem, and to produce a working program implementing that network. The book provides guidance along the entire problem-solving path, including designing the training set, preprocessing variables, training and validating the network, and evaluating its performance.
