Sacred Geography: Geomancy: Co-Creating the Earth Cosmos (pub 2007) is the most important book I read in 2018. Why? Because it coherently and respectfully introduces a most significant field, the new geomancy: an optimistic, holistic view of the Earth and Cosmos, how it's evolving, and what we need to do to harmoniously support and benefit from Earth changes.

Sacred Geography: Geomancy: Co-creating the Earth Cosmos ...

To convey the idea that geomantic knowledge in a very specific way complements the material point of view of geography, I refer to geomancy as 'sacred geography.' By 'sacred' I mean that the task of geomancy in our present day is not simply to foster public interest in etheric, emotional and spiritual levels of places and landscapes, but also to promote a deeper, more loving, and more responsible relationship toward the Earth, the Cosmos, and all beings, visible and invisible.
